Chief of Department
RE: 2019 Bond Referendum Vote

On behalf of the Board of Fire Commissioners, Office of the Fire Chief and the men and women of the Winslow Township Fire Department we would like to thank you for your support of your Fire Department. Yesterday's favorable vote for our bond referendum question will allow us to improve infrastructure, modernize equipment and make marginal improvements to existing buildings. It is a serious responsibility to ensure we have the necessary capabilities in place to deliver our mission centered on fire and rescue services and one not taken lightly for this growing community. Having proper and safe equipment supports YOUR firefighters in our ability to render the best service we possibly can.

It was not easy for us to go out to the community seeking these funds but these capital projects demand that we do. We looked very hard at the financial impact and what was a fair request for these plans. We attended many community meetings to be as transparent as possible, utilized social media and our website to provide information. We wanted to ensure that the proper information was provided so that voters had the best information as they were exercising their right to vote.

We work very hard in the community throughout the year beyond providing that fire and rescue service. We provide free smoke and carbon monoxide alarm testing and issue ones where needed, we attend many community events, support the local food bank, public fire safety education, code enforcement and many other functions as we believe we should not only be part of the community on its worst day. Again, we thank you for the support and promise you that we will utilize these funds appropriately and responsibly and continue to be a strong presence in this community!

THANK YOU!
